

CRAZY

You'd be Crazy too with a job like I have to do
I butt my head into a wall every day, just for you

You who are the people of my wonderful sweet Earth
I teach of a miracle for a better way of Life to have birth

I battle at the barriers that restrict and demean Life
And am treated as though I was a bringer of strife

It's a tiny simple thing that I ask Earth's people to do
It will benefit all of mankind and take nothing from you

There is a sickness in the way we do abuse Life on Earth
If we bring our minds together we will give the cure its birth

Let us dance and sing in praise of the joy and wonder of Life
And with the Crazy little word BLiTtER put an end to all strife

Of all solutions and plans none can lay claim to what I do
To make the best of the whole Earth that belongs to me and you

It's no wonder I'm Crazy my idea is not of our beautiful Earth
There's a new dimension to Life that man's mind link will birth

The heavenly idea of Paradise will begin its new Life
The day will come when we say, What was strife?
