

## FEAR

I'm talking about the Big One, not what you have for all your demons and goblins. Fear of the unknown. It is part of the "direction" of Society, to keep us going From God.

It is a Fear so great that we fill in the unknown with our ideas of what is most horrible. "The Messiah" is of that Fear, as a defense. Hell was created as the fill for the unknown; it is something we could know and be saved from.

There is nothing, nobody or no power that is going to come and do anything to or for us. "We" are that that we fear. "We" are the driving force of Creation.

Does that scare you? "We" are responsible. "We" made this mess and nobody, nothing but "We" can change it.

"We" is the cosmic consciousness of Earth, mankind is the driver and we are running scared From God. It's time to stop running From God and act like we are Of God.

Seeing what we have done in the physical world, it's no wonder we can create all sorts of fantasies in our mind with the blink of an eye. Real other worlds, we can share them, talk about them and escape into them, From Life.

FEAR has really got a bad rap because of the fear we have of all our created demons. It is simply not knowing the value of Life, "Why are we here?" is the Unknown.

We are frantic to find the answer and It is the answer.

We are here!!! Alive!!! Life is what it's all about; the Experience of the primal Awareness as it grows into the physical world is Life.

The new Unknown is our potential, to be explored.

We have to deal with the FEAR.

The FEAR must be confronted. It is and will continue to be the driving force of creation until "We" change our way by facing It.

"We" have to face It. "We" can do it with such simple ease that the idea sounds ridiculous. When "We" the unit, have a "common" point in our minds referring to the Unknown "We" will have confronted the FEAR.
