

I am a messiah

It ain't any big holy deal; it's a job, messenger boy.
I have the Paradise package.
I can't lie and say I didn't ask for the job, but I never thought I'd get it.
I have been earnestly seeking to understand Society for thirty years.
I have believed for thirty years that Earth is our destined Paradise.
I have prayed to know, **What is wrong with Society?** for thirty years.
It's about damn time something happened... and by God I got the answer.

Rule overrules God

This is the fact that began Civilization.
It began with denying individual godliness for the good of the species.
It is the "direction" of Society.
God sanctioned it for us to master the physical world.
We're done; it's time to change the "direction", From God.
The fact is inherent in every facet of Society.
To change Society, change the fact.

It is the answer.

It answers all questions about what is wrong with Society and provides a solution to make it better.

"BLitTeR"

At the **Bottom Line Turn Right** is the formula to explain the solution and the acronym is the Key to effect change in the "direction" of Society.

To BLitTeR, is to "acknowledge the Feeling". The Feeling sometimes comes to us naturally when we are making a decision that something isn't right. Try to not do something wrong because of a rule.

Rule guides you towards what is right, God tells you if there is a wrong, listen.

Incredible but True, a "BLitTeRing" Society will get better. We will turn to the "direction" Of God.

This is the way to change the "direction" of Society.

Now is the time for the change.

Society will learn to "BLitTeR" or continue with its present "direction", From God. It will be hell on Earth.

BLTR

Bottom Line Terrestrial Residents

Earth people's organization

Godliness without dogma
