

## Real People's Place

Building with the finest ideas  
And laborers determined to do right  
Parts and materials are the finest  
It will not be victim to blight

Grand and beautiful, open and free  
Good things included all the world round  
Complete and full of the knowledge  
Of all who've lived on Earth's ground

Compassion, passion and grace, tolerance  
Peace and harmony in the name of Love  
There's only one exclusion to a man  
He cannot have thoughts from above

Unable to defend old ideas and thoughts  
They hold that are dear but not clear  
Real people attack and defame  
Anyone who would uncover their fear

Dear Real People please open your door  
Allow in new knowledge for a better day  
There is no threat to all the good things  
It's the bad things we will make go away

It's a simple thing we must do  
To make the whole world nice  
It's the destiny of mankind  
To Live in Paradise
